**The Ultimate Smart Shower
& Steam Experience**

Experience the ThermaSol Smart Shower with Steam Therapy

More than a system, ThermaSol's products are a daily wellness experience, combining the latest technology in sound, light, water and steam which allow users to control and personalize their shower experience.

(A) Smart Touchscreen Controls

Providing a complete and personal wellness routine, users are able to program, adjust and activate any shower and steam function down to the smallest detail with ThermaSol's in-shower smart touchscreen control options. ThermaSol's exclusive App Store allows users to listen to music, watch TV, videos and update firmware when connected to Wi-Fi.

(B) SteamVection Steamhead

ThermaSol engineers have used the proven science of convection to create an industry first: the SteamVection Steamhead. This state-of-the-art design delivers unequalled floor-to-ceiling temperature uniformity within the steam shower.

In-Shower Bluetooth Speakers

For an easy shower upgrade without the need for added equipment, ThermaSol offers easy-to-install plug-and-play In-shower Bluetooth Speakers.

(C) PRO Series Steam Generators

ThermaSol has remastered and expanded its flagship PRO Series Steam Generators to deliver the industry's most advanced steam generators in three robust models.

(D) Smart Digital Shower Valve

The Smart Digital Shower Valve allows the user to control all aspects of their shower fixtures, including water volume and temperature directly from the in-shower smart touchscreen control.

(E) ThermaSol Shower Fixtures

ThermaSol's shower fixtures have been designed to coordinate with today's most popular contemporary bath styles in 5 popular finishes: Matte Black, Oil Rubbed Bronze, Polished Chrome, Polished Nickel and Satin Nickel.

Aromatherapy

Bring in the healing power of scent with ThermaSol's 100% organic Essential Oils by adding their natural essence into the steamhead reservoir.

(F)

HydroVive Light, Sound, Rainhead
HydroVive combines the ultimate in technology with first-class design into a single rainhead integrated with full spectrum chromatherapy lighting, premium HiFi audio and rain shower experience.

ALTERNATIVE RAINHEAD OPTION

Serenity Light, Sound, Rainhead
Featuring a sleek new design, the Serenity rainhead delivers the healing power of sound and chromatherapy to balance the body's energy.

* All PRO Series Steam Generators can be installed/plumbed up to 50' from shower.

* Smart Shower Valve can be installed/plumbed up to 30' from shower.
