Innovation Meets Craftsmanship

The Story Of An Original.

It all started with a simple request — *“Hi, can you build a steam shower in my apartment similar to what I’ve experienced at the club?”* To David Altman, this was no small request in the late 1950’s, as it had never been done before. Yet through innovation, expertise and sheer determination, David prevailed. By 1958 the first electric steam bath and shower combination was unveiled — designed, patented, built and yes... installed. ThermaSol the brand was born.

Innovation

As ThermaSol defined the industry, innovation continued and that same passion to drive possibilities lives on today. From humble beginnings to breakthrough patented advances – including Smart

Steam and the exclusive HydroVive – combining water, sound and lights into one rainhead, ThermaSol remains steadfast, providing ultimate comfort in the shower, steam shower and sauna for homes, spas and health clubs.

A Better Experience And The Strongest Warranty In The Industry

For over 65 years the enduring principals of the founder are strong. Now led by the third generation, Mitch Altman, the focus remains clear: to transform water, steam and heat into joy, relaxation and rejuvenation. Truly, this pride is authentically ThermaSol and so is our exclusive *No Questions Asked Lifetime Warranty*.

Turn On Water. Luxury Awaits.

A Shower to Savor. What makes a ThermaSol shower different and better? The answer is everything. Or more specifically, we take nothing for granted. Whether it's the water pressure, the exact temperature, the ability to add soothing lights, music, your very favorite podcast or streaming program, we continually strive to go above and beyond ordinary. It's taking the daily ritual and making it, dare we say indulgent. As each person's ideal shower experience is specific to them, that information can be easily programmed into the ThermaSol control so immediately the preferred shower settings are ready to go. No fuss, no wasted time. Just pure bliss.

Soothing Steam Results — Daily. While there is a cultural obsession with wellness, we prefer to look at things as a life well lived. Perhaps it's perspective. Or perhaps *health-sensibility* is in order. Take your shower to the next level by introducing steam. The result — transformational comes to mind. It's a wonderful way to start or end the day. To relax. Complete a workout. Soothe, improve and rejuvenate.

The It-List Of Why ThermaSol

- American-made and family owned for over 65 years and three generations
- Designed and patented the first residential steam shower in 1958
- Proprietary Steam Generator featuring: Smart Steam Technology, Fast Start Technology, Split Tank Engineering & Auto Powerflush innertank cleaning system
- Touch and voice activated controls — Android operated featuring the most popular streaming apps
- Exclusive SteamVection Technology — Superior temperature uniformity
- Digital Smart Showering Technology — Seamlessly control all aspects of your shower routine
- Lifetime Warranty — No Questions Asked: Our unwavering commitment to quality ensures peace of mind for a lifetime
- Customer Service — On demand tech support for all things ThermaSol

Perfection Personified

The ability to personalize your shower and steam experience is well-deserved. We often hear — “I didn’t know I would love it, until I did.” So for 3 minutes or 23 minutes, leave the world behind for “me” time. Conveniently customize your daily wellness routine with our smart controls. At ThermaSol, we measure success by each blissful experience.

Function Meets Wow.

Our most complete shower and steam package — Total Wellness

Offering total immersion with shower and steam capabilities. This package has all the components to help make the impossible day, the longer workout and the extra effort... possible. Including an intuitive, touchscreen control, so with just a tap of the finger you can ease into a shower experience of soothing lights, captivating sound and the desired water temperature and pressure. As steam is delivered through our exclusively designed SteamVection Steamhead, temperature uniformity throughout the steam room is achieved. Consider it your in-house, self-care routine.

PRO Series Steam Generators —

The Essential Components to Turn Your Shower into Oohs & Ahhs

The generator serves as the foundation of the steam system. ThermaSol PRO Series generators offer the latest technology along with the clarity of simplified controls, all at the tap of a finger.

Three of the many key features include: Constant steam at a constant rate, which delivers steam in your space continuously and is only available from ThermaSol. FastStart Technology, so you can get up to your desired steam room temperature quicker, and ThermaSol's patented SmartSteam Technology, the ultimate in steam room temperature control. This exclusive feature allows you to enjoy a consistent and relaxing steam experience.

Beauty below the surface — Of course no ThermaSol PRO Series generator would be complete without our proprietary innertank design for greater reliability, as well as our advanced cleaning system (Powerflush). These exclusive features serve as the foundation for our disciplined approach to superior generator design, technology and performance.

Simplicity In Design. A Clean Look. A Sensational Shower.

The Wellness Shower Package — purity in function and peerless in the industry.

A beautiful shower should reflect clean lines while maintaining design integrity and intent. We call it shower style and no better product to seamlessly manage the functionally and maintain the designed look than our exclusive slim-profile, ThermaTouch control. From built-in Wi-Fi to popular streaming apps featuring: news, sports, music, health & wellness and even live TV.

Combine this with the Digital Shower Valve — our hidden secret behind the wall, to instantly eliminate the need for unsightly handle configurations inside the shower.

However, what's not hidden is the HydroVive Rainhead, delivering water, sound and light to the shower spectacular.

The It-List of Why a ThermaSol Digital Shower

- Precise Temperature Control: set and maintain water temperature and flow rate eliminating manual adjustments. Set it once, preferences will be remembered
- User-Friendly Touchscreen Controls: ThermaTouch and SignaTouch are easy-to-use. Customize your settings as well as preferred selections for multiple users
- Multiple Configurations: Control multiple showerheads, hand showers, body sprays, or jets, all from a single control
- Smart Features: Compatible with Alexa voice assistant, plus apps—control your shower experience remotely
- Design-Centric: Yes, design matters and our clean-lines and minimalist approach will enhance the aesthetic of your shower
- Installation Flexibility: Our digital shower valve can be installed up to 30 feet from the shower space. Maximum flexibility
- Easy Installation: Installing a ThermaSol digital shower is often simpler and less expensive than having multiple handles and valves

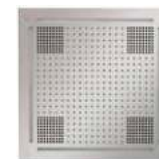

**Wellness Shower

Goodbye Expected. Hello Exceptional.

The Digital Shower Package

The Digital Shower Package. Gain complete control over your shower environment...

above and below the surface. With our Digital Shower Valve, eliminate the need

for multiple bath fittings, bringing added flexibility to the shower design. Our

ThermaTouch and SignaTouch controls allow programming of the water pressure

and exact temperature to your preference.

The ThermaTouch control is also compatible with our Bluetooth® in-shower speakers.

All Steam Showers Are Not Created Equal — Some Simply Have Better Pedigree.

Our Wellness Steam Package is *the* standard of excellence to behold. Yes, the innovation and performance is evident in the SteamVection Steamhead, touchscreen control and multi-sensory HydroVive Rainhead. Yet equally important, is the quality and reliability earned and honed from over 65 years of experience, dedication and passion. The result... serious steam, done exquisitely.

The It-List Of Why Steam

Relieve Stress

Encourages a relaxed state and promotes overall well-being.

Improve Breathing

Opens nasal passages, soothes sore throats, and helps relieve respiratory discomfort.

Detoxify Your Body

Sweat helps release toxins from your skin and clear pores.

Relaxes Muscles

Improves circulation and helps reduce muscle pain.

Rejuvenates Skin

Opens pores and leaves skin with a healthy glow. May improve acne.

Enhances Sleep

May help increase better quality sleep patterns.

ThermaSol Owners Aren't Extravagant. Just Smarter.

It's for those who choose performance. Who value, *built-to-last*. Who understand the principal of *buy-it-once, so you won't have to buy it twice*.

But perhaps the one commonality that ThermaSol owners recognize is the precious commodity of time. Do more, feel better, de-stress, less pain and do it now. With the convenience of our home shower, steam and sauna systems, the benefits delivered every day is simply... a smart decision. ThermaSol. Distinctive designs. Peerless standards.

Steam Generator Comparison.

The Right Generator For Every Space

THERMASOL EXCLUSIVE

No Questions Asked Lifetime Warranty

Lifetime Factory Parts & Labor Warranty.

PATENTED

Smart Steam – The Ultimate in Temperature Control

Smart Steam combines the ultimate intelligence technology providing consistent steam temperature control and energy efficiency—truly an unparalleled steam therapy experience.

THERMASOL EXCLUSIVE

PowerFlush – The Most Advanced Cleaning System

Most competitors use a gravity drain system which does not completely eliminate sediment. ThermaSol uses a pressurized inner tank system to remove sediment.

FastStart Technology

Steam is produced in a matter of seconds for an efficient and effective way of getting up to your set desired temperature.

THERMASOL EXCLUSIVE

Constant Steam at a Constant Rate

Consistent steam delivered into the shower space eliminating “bursts” or “lag” often found with other manufacturers.

THERMASOL EXCLUSIVE

Split Tank Technology

Exclusive internal tank design providing reliability and longevity.

THERMASOL EXCLUSIVE

Latest Digital Technology

The Controller Area Network (CAN Bus) is the nervous system, enabling intelligent communication through all connected ThermaSol devices.

Stainless Steel Drain Pan

Providing protection and peace of mind. Included with PRO Series III. *Compatible with PRO Series II and PRO Series I, as an add on.

Shower Fixtures. In Harmony and Balance

It's all about capturing the pure joy of an inspired space. You see our fixtures don't just deliver water, rather – *the art of water*. With your choice of two exquisite shapes and five designer finishes, the celebration of the shower unfolds.

Essential Shower Package:

Complete the showering experience with this easy-to-install package. Includes a rain canopy and handshower – available in round or square design.

Hand Shower:

The single-function hand shower delivers a perfectly balanced full-coverage spray. The adjustable height lever allows you to target specific areas of the body. The hand shower's artfully sculpted sprayface complements contemporary and minimalist baths.

Body Sprays:

Relax and relieve sore muscles with spa-like hydrotherapy in your shower space. This wallmount single-function body spray features high-pressure deep massage streams within a rotating ball joint, ideal for achy muscles. Install multiples for the ultimate therapeutic shower experience.

Rain Canopy:

Let the full-coverage Rain Canopy wash stress and tension away. This intuitive rain canopy features a wide-nozzle face plate, releasing a welcoming stream of water. An integrated ball joint keeps the rain canopy parallel to the floor, providing a steady spray for consistent coverage. With a unique contemporary design, this rain canopy brings standout style and function to your showering space.

Shower

Steam

Details Matter.

Accessories can stir design stories. What makes your shower unique is up to you. We provide the accessories, you curate and make it your style.

Active In-Shower Bluetooth Speakers

Transforming any ordinary shower into an extraordinary oasis, these high-fidelity Bluetooth® shower speakers deliver rich and luxurious audio quality. The steam-proof and water-resistant speakers offer a high-performance sound that complements your ThermaSol shower experience. Their low-profile design makes them ideal for mounting in a ceiling.

Passive Shower Speakers

Create a built-in sound system with these passive speakers, and enjoy clear sound and comfortable listening in your shower or anywhere in or outside your home.

In-Shower LED Light

Crafted with durability in mind, ThermaSol's dimmable LED Shower Light matches the shower's clean feeling with a crisp glow. It stands up to shower and steam conditions with an airtight construction and durable trim.

Shower Seats

Safety and style come together with our wall-mounted, folding bamboo shower seat. The compact design will work in any shower for an elegant seating option. Natural bamboo wood for the seat and back create a high-end spa feel. The brushed aluminum frame is ADA-compliant, durable and allows the seat to fold up when not in use.

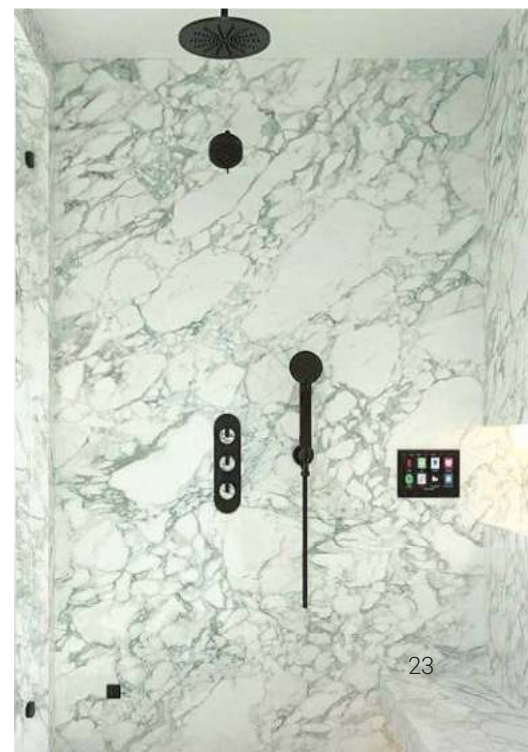

Aromatherapy

ThermaSol's 100% organic concentrate Essential Oils elevate your steam shower experience with a multitude of therapeutic scents sourced directly from nature. Add a few drops of your favorite oil to the steamhead reservoir in your steam shower and breathe in the natural power of their essence.

A Source Of Inspiration.

The Sauna —

And the Power to Transform with *Dry* Heat.

Wellness isn't new and neither are the health-related attributes of heat therapy. In fact, for over a century, global studies from premier medical research firms and leading universities have found a long list of health and preventative benefits associated with saunas and steam systems. But which to choose? It's purely a personal preference.

A steam shower fully immerses you in a warm soothing wet heat. Whereas sauna users relax with a dry heat and are able to introduce bursts of humidity based on the amount of water ladled onto the hot stones. Whether installing your sauna inside or outside, your personal health and relaxation sanctuary is within steps.

Designed To Perform

- Purpose driven, in all the right places
- Recover from exertion sooner
- Relax muscles
- Lesson aches and pains
- Improve blood circulation, which in turn speeds the body's natural healing process

Discovery and Recovery

- It's feel good... and it's good for you
- Skin revitalization - Deep sweating, one of the best beauty regimens to cleanse skin
- Helps eliminate wrinkles by triggering the production of collagen
- Stress reduction
- Flushes toxins

Live Life Better

Helps...

- Reduce blood pressure
- Treat aches and pains as well as chronic conditions like rheumatoid arthritis
- Relieve sinus congestion and incidences of colds
- Induce a deeper sleep, feel more relaxed

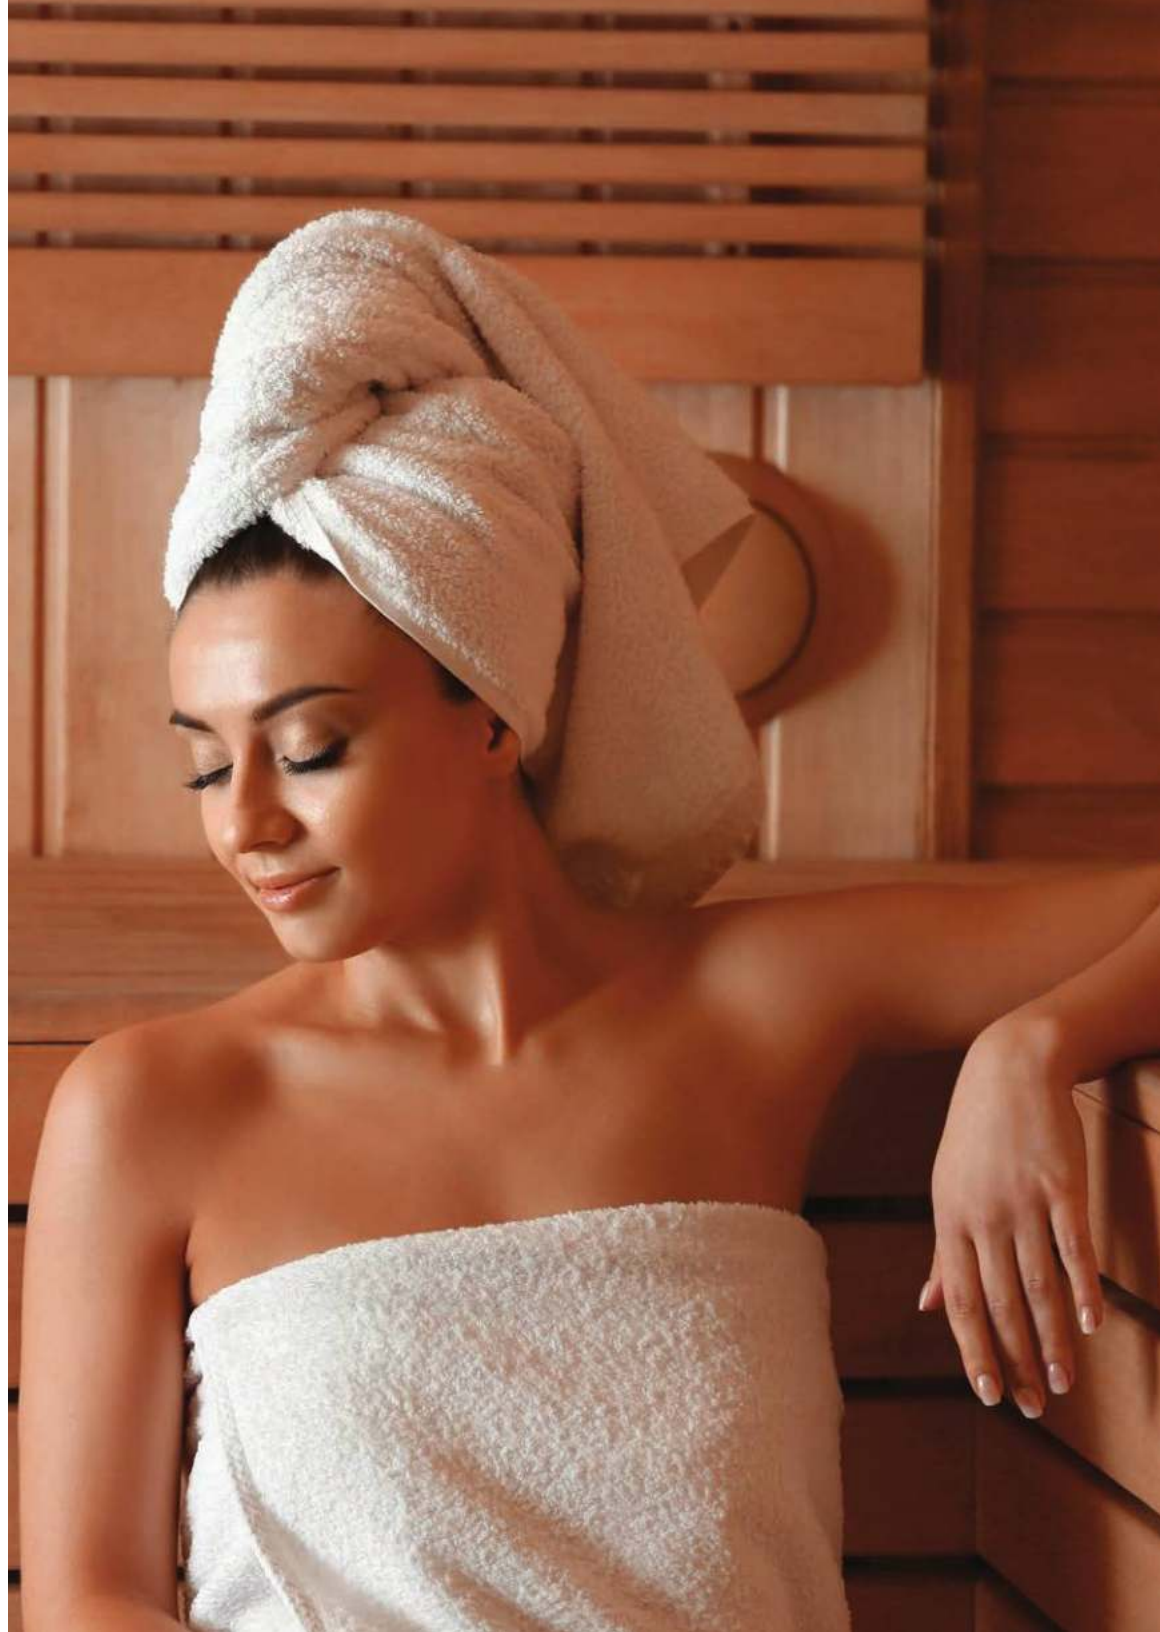

Indoor Saunas.

Sauna

Custom Saunas.

Make It Your Own

Sauna with style in a custom design made just for you. Our engineers and artisans can develop a system to fit... and transform your space. So whether a spare room, a closet, area in the basement or attic — we'll design a retreat to fit, all in pleasing proportions.

Let's get started. Just fill out the Sauna Input Form at www.thermasol.com/custom-saunas. Then schedule a consultation with one of our Sauna Design Consultants. We look forward to turning your sauna dreams into reality.

Custom Saunas

Chromatherapy.

Color Gets Personal

The use of light and color are a source of inspiration... and healing.

It's a non-invasive way to help restore the body, to calm, feel refreshed and promote tranquility. Our saunas offer the ultimate in the pursuit of pure relaxation. Perfect for everyone.

Essentials — Worthy Of The Finest Sauna... And They Are All Included

Our large-format thermometer/hygrometer for monitoring of temperature and humidity. Plus a stainless-steel bucket and ladle, crafted with a comforting heat resistant cedar handle.

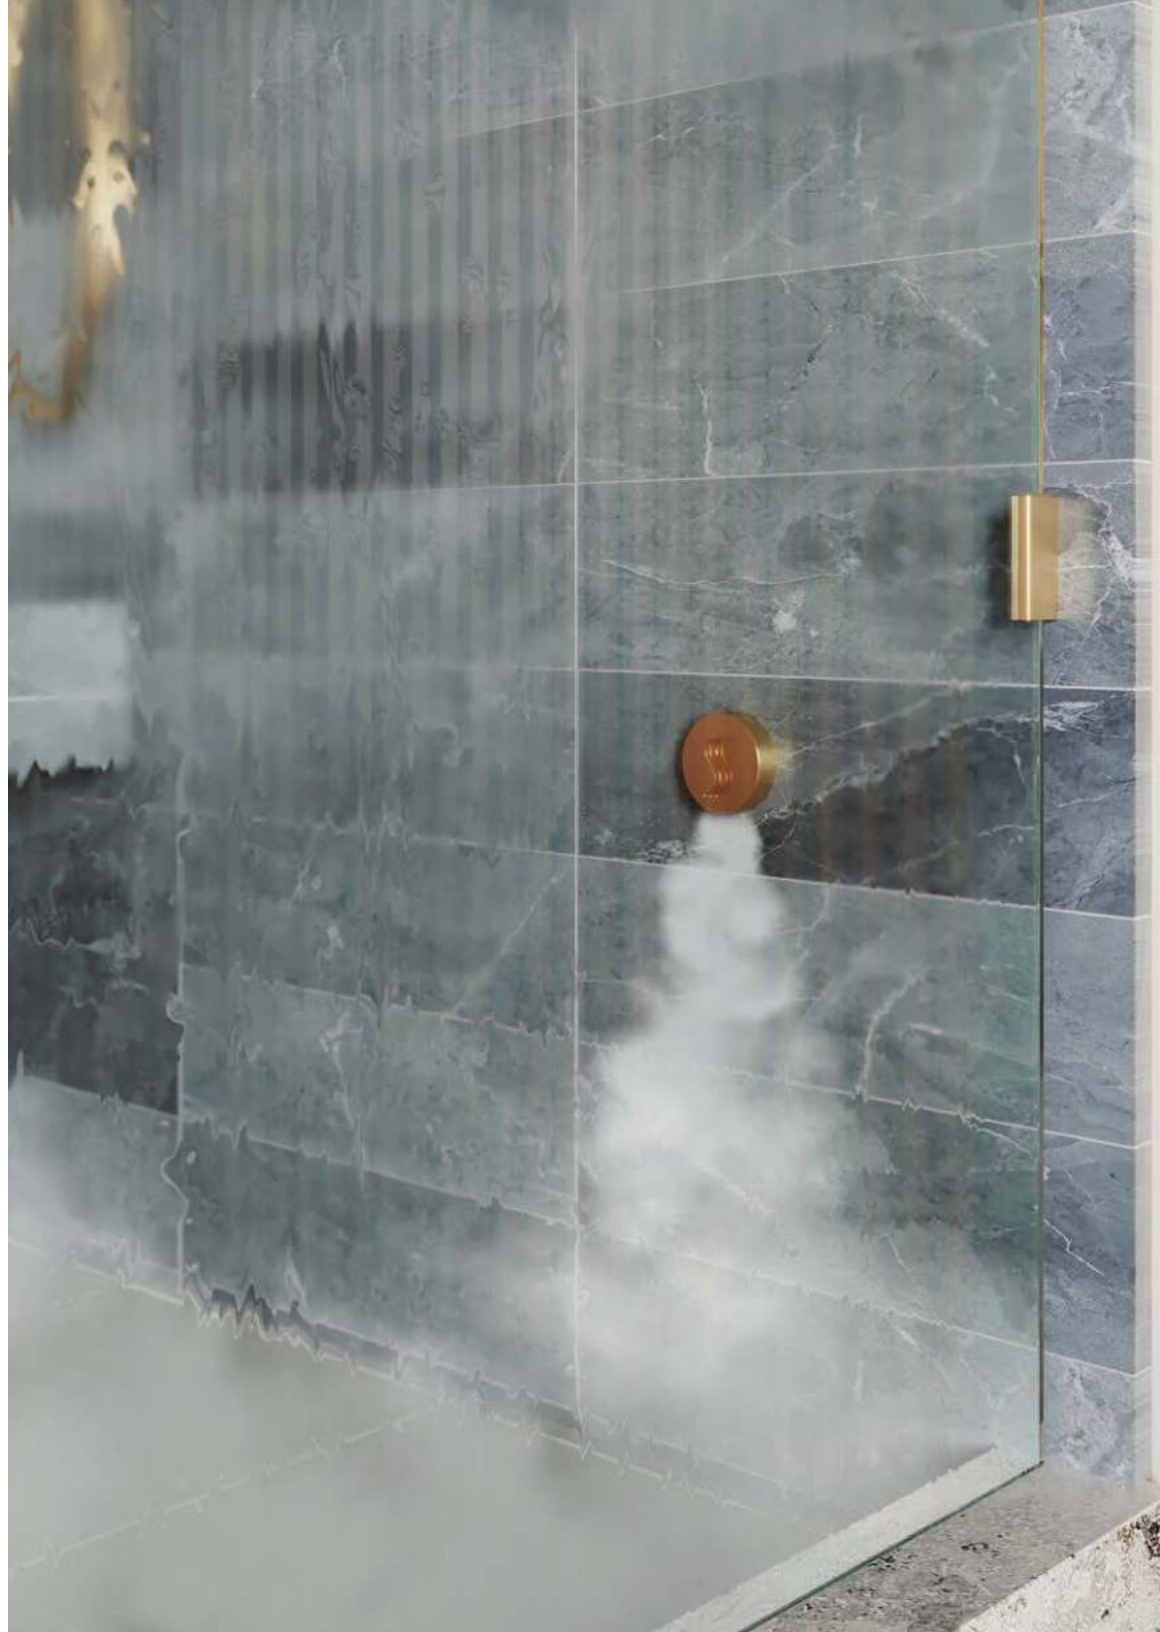

Wi-Fi Enabled Digital Remote Control. For The Ultimate In Convenience

What better way to prep for the sauna than by turning it on remotely. Same with shutting it off. The functions have been perfected for easy-use and application.

We're Here To Help... And Teach... And Delight.

Showers, steam systems and saunas are our passion. At ThermaSol University – Virtual Learning Experience Showroom, we continually train our dedicated service experts and technicians with the latest information. We also offer complimentary one-on-one training and consultation. It's what we do. So you can relax and rejuvenate.
